- Technical team proposed a framework taking into account comments and limitations of the different scenarios

# Methodology and Procedure

## 1. **MPI framework design and computation based on :**

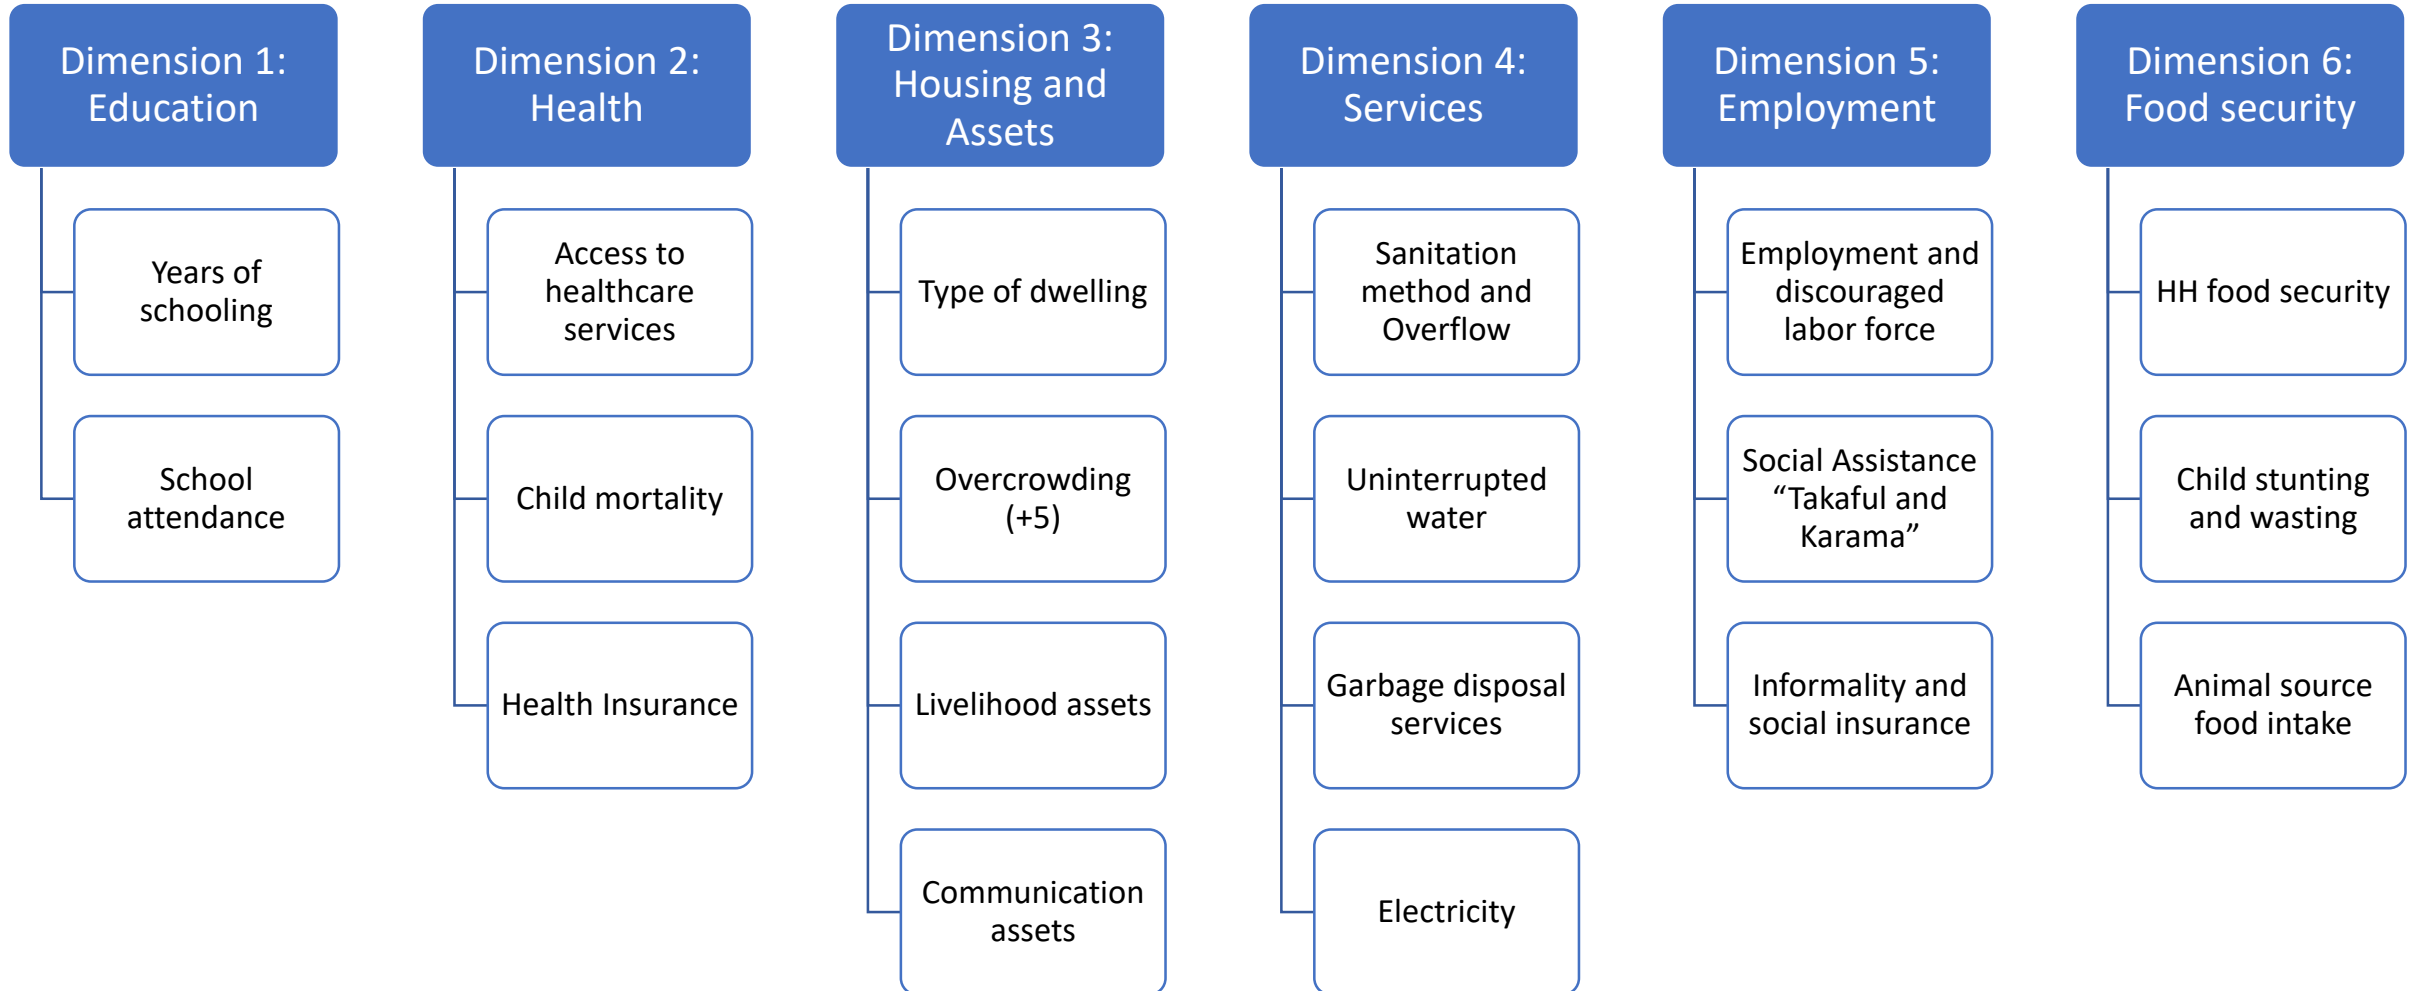

- Alkire-Foster methodology

## 2. **Motivation: National development Plan**

- There is a political commitment toward the guiding principle of Agenda 2030 that is “Leaving No One Behind” and a manifestation of localized development.
- Egypt started to accord significant attention to the localization of the SDGs on the governorate level to address geographic disparities “Egypt Vision 2030”.

# Unified Framework for National MPI for Egypt

# Work in Progress :Child MPI

- C-MPI is linked with National MPI
  - *With child focus should synergize & activate national strategies and plans; and giving guidance on poverty reduction policymaking, potentially including budget allocation or other forms of targeting.*
- *Using HICES*
  - *Tailor the global C-MPI framework on the Egypt context and data availability to sustain producing the updated index every 2 years using HICES data.*

Thank you very much
