# MULTIDIMENSIONAL POVERTY ACROSS IsDB MEMBER COUNTRIES

**Dr. Areef Suleman**  
Director, Economic Research & Statistics  
IsDB Institute

# Key facts

- Established in Jeddah, KSA 1975
- Comprises six entities
- 57 member countries across 4 continents
- Operations in over 100 countries
- Over 1,100 staff

# Only 42 IsDB MCs reporting MPI

**1 in 3**  
are MPI  
poor

**83%**  
In rural  
areas

\$ poverty  
≠  
MPI

Poverty  
deprivations  
varies  
across MCs

< 18 years  
constitute  
55% of poor

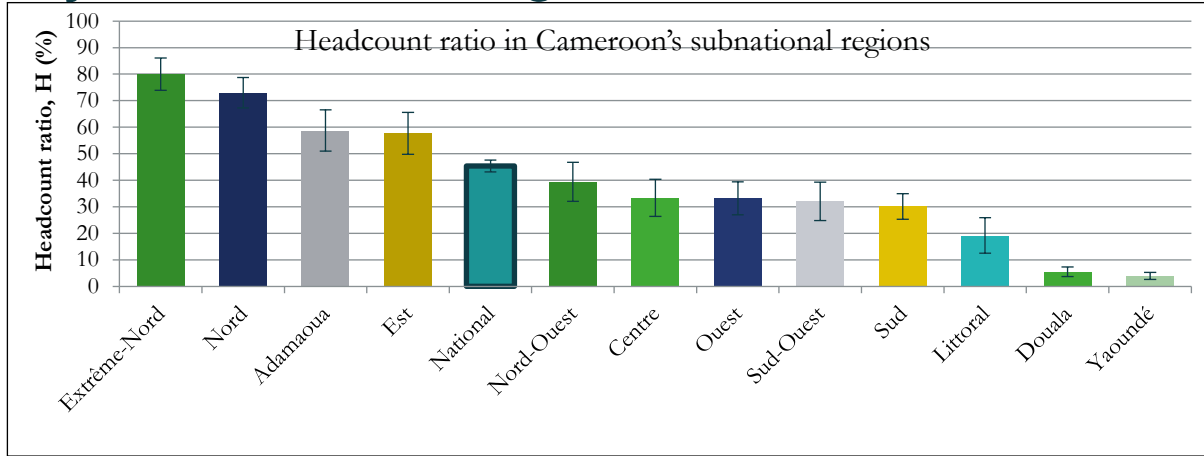

> 50% poor in  
Nigeria,  
Pakistan,  
Bangladesh,  
& Uganda

69  
subnational  
regions in  
which at  
least 8 /10  
poor

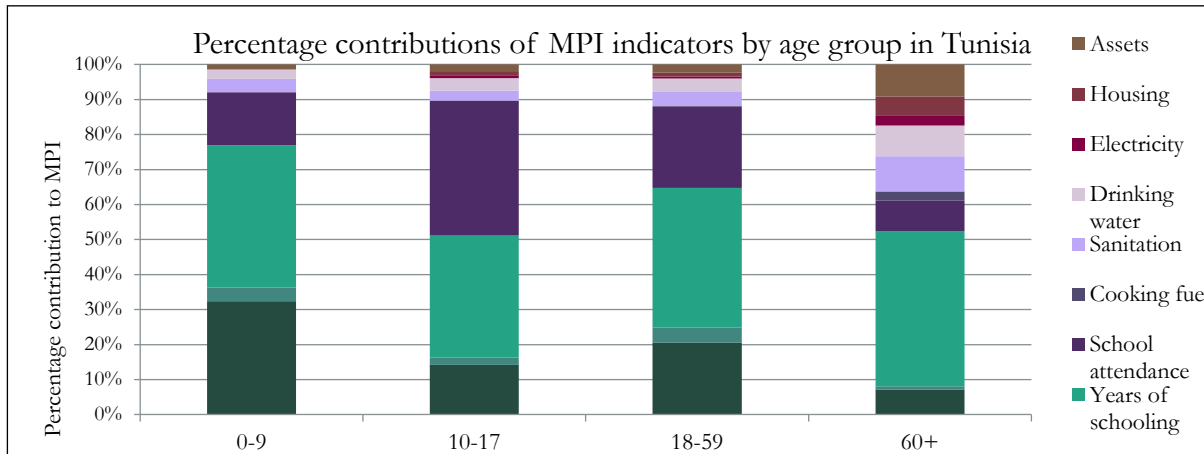

9/10 in Niger  
8/10 in Chad  
& Burkina  
Faso

# Multidimension poverty can also vary within MCs

## by subnational regions

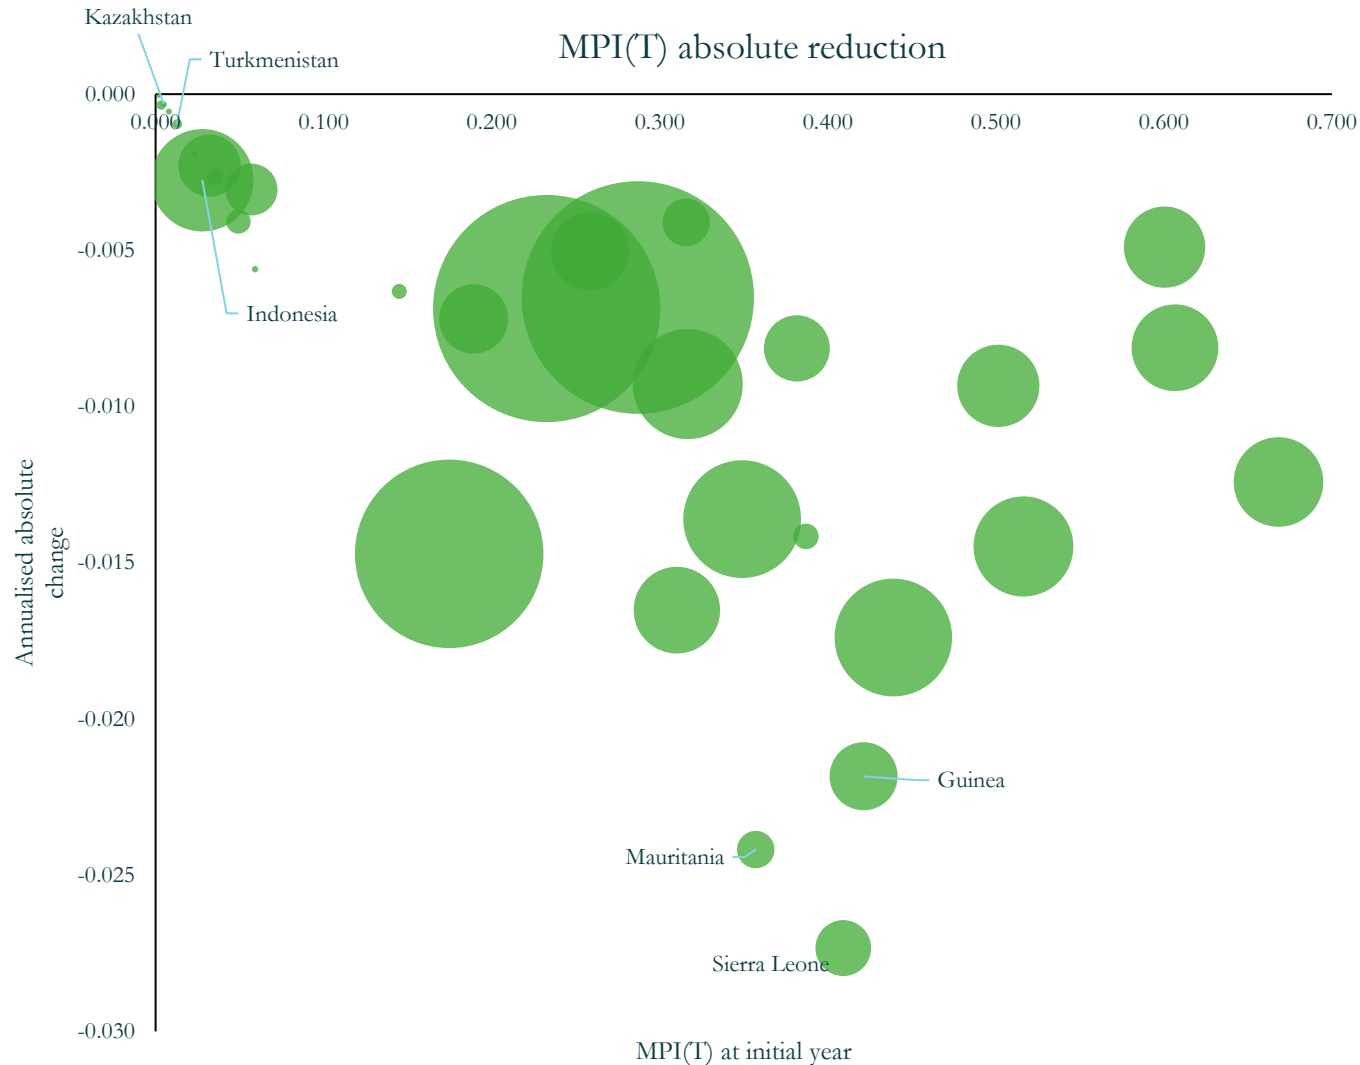

## by age group

## urban vs. rural

# Many MCs have made gains in poverty reduction over time

- 29 countries reduced their global MPI significantly in absolute terms
- Bangladesh, Mauritania, and Sierra Leone stand out in subnational poverty reduction.

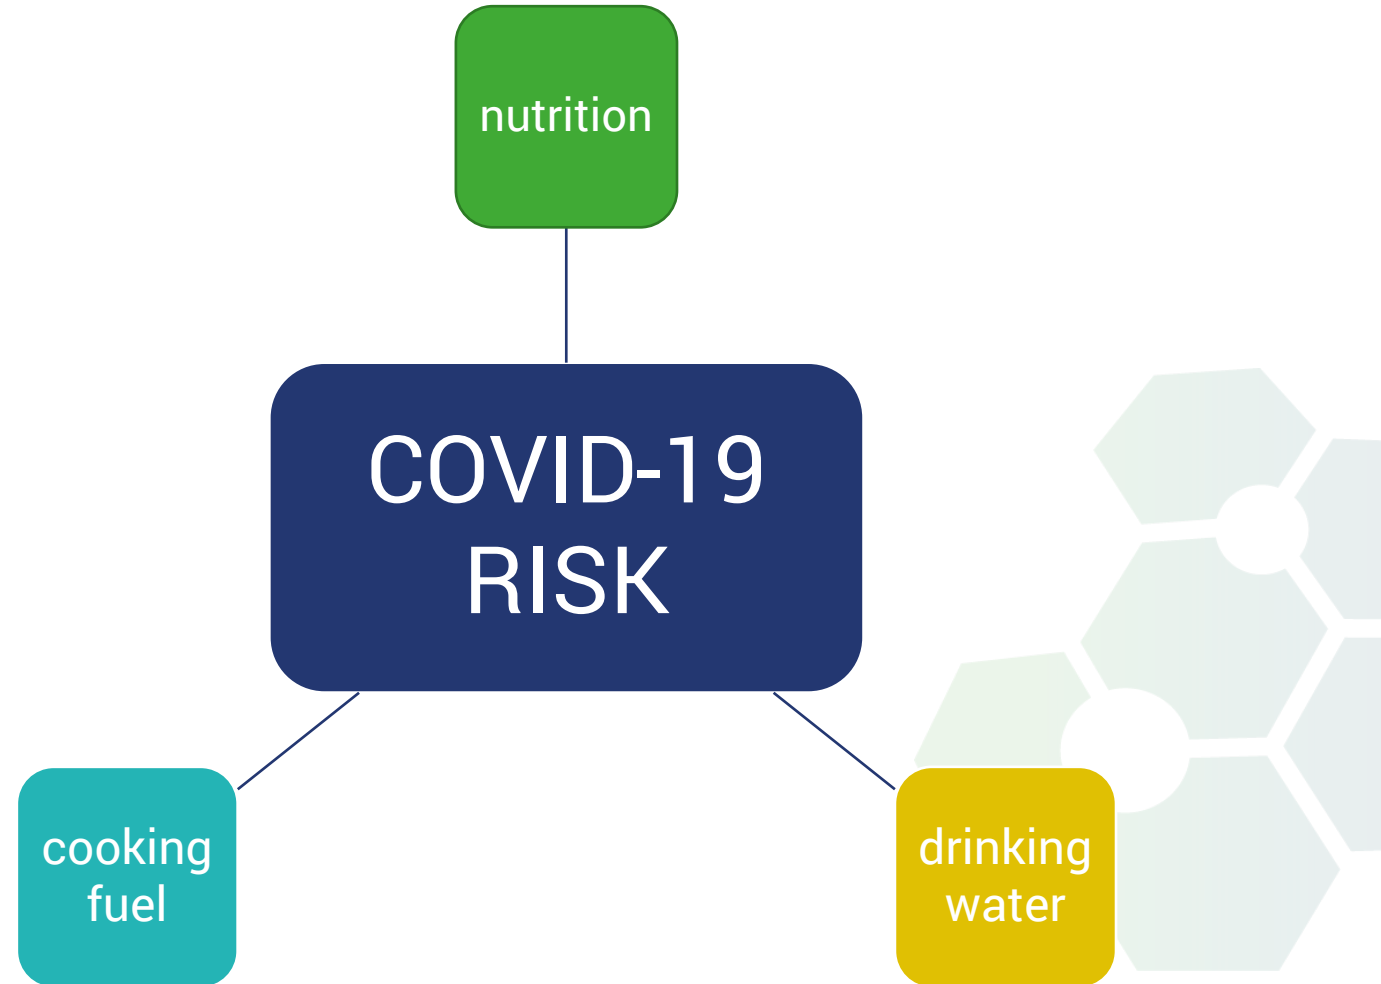

# The MPI can be used to identify populations at higher risk of COVID-19

At risk (deprived in at least one of the indicators):

- Mali (99.3%), Niger (99.2%)
- In 12 Sub-Saharan African MCs, more than 9 out of 10 are at risk.

At high risk (deprived in all three of the indicators):

- 1 in 3 in Niger (35.4%) and Chad (32.2%)
- 1 in 4 in Mozambique (26.2%)
- 1 in 5 in Guinea (19.9%) and Benin (19.6%)

# Evidence-based interventions are needed in building forward better

- Some populations more vulnerable than others
- Understanding the deprivations is important in fostering inclusive recovery
- Member Country Partnership Strategies
- Targeted Interventions
- Reverse Linkage Opportunities
